

## TIR LEG SUMMARY AND RANKINGS

The Rank is from the hardest (1) to easiest (40). Category 5 legs are the 8 most difficult legs, while category 1 legs are the 8 easiest. Rankings are based on everything else being equal. So, neither the time of day (or which day) the legs are run, nor the weather is considered in the ranking. The largest factor is the length of the leg, followed by changes in elevation, and number of turns to navigate. Leg 1 for ranking purposes is considered 5.41 miles.
